

PATH PROJECT

ANNUAL REPORT 2020

Our dream...

To see **thousands of children** growing up in **mobile home communities** across the Southeast US graduate high school & find God's plan for their **future**.

Reflecting on 2020, MOVING FORWARD

As we make our way through 2021, **we're excited to share with you some of the challenges and hope that 2020 presented to our students and their families.** We know you faced obstacles this year in many different ways — and our Path Project students and families were no different. In fact, the pandemic hit our families harder than most, for many reasons. Navigating **digital learning at home was one of the biggest challenges** of 2020 for our students and their parents. At the same time, our staff members were adapting to the hurdles of serving our students in this new digital environment. **These challenges have led us to reIMAGINE our work at Path Project.** We are better now at our work than we were before the pandemic. Here are a few stories from the past year that we hope will encourage you as we all embrace new opportunities in 2021.

Celebrating THE POWER OF PARENTS

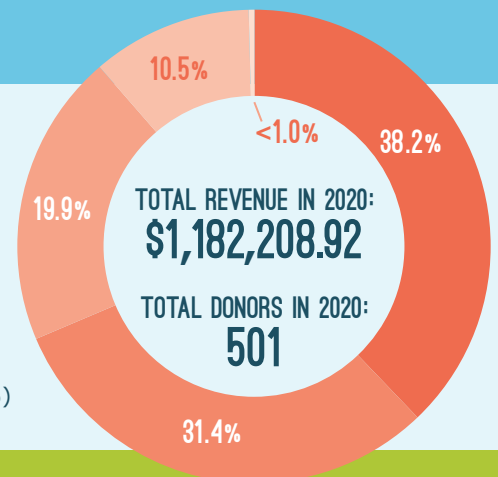

The power of investing in the parents of our students was one of the most important things we learned in 2020. Our staff **spent more time listening and talking with parents last year than ever before.** We've always known that our students' parents want the best for their kids, but 2020 taught us that **these amazing parents will rise to the challenge when they're confident and equipped** with the resources they need to be successful.

We are so grateful for ALL OF OUR DONORS!

A heartfelt thank you to all of the many individuals, businesses, churches, & foundations that supported Path Project in 2020. We are blessed that you believe in our children as much as we do — **your generosity made a world of difference to every family in our program!**

- **Foundations: \$451,539.70 (38.2%)**
- **Individuals: \$370,973.18 (31.4%)**
- **Churches: \$234,711.15 (19.9%)**
- **Businesses: \$123,797.89 (10.5%)**
- **Program Revenue: \$1,187.00 (<1.0%)**

The gift of 527 COMPUTERS

When our students began digital learning at home in March 2020, we quickly realized there were several barriers to their success. The biggest one was the lack of access to devices (in March, most of our students were doing their schoolwork on smartphones). So in May, thanks to the generosity of many donors, **we were able to purchase 527 brand new Chromebook computers — one for every family in our programs!** In addition to giving away these computers, our staff met individually to teach the parents of our students how to use them to check their child’s grades, access online literacy programs, and do schoolwork. Using their new computers over the summer, **our students read over 100,000 minutes online!**

Spotlight on... MIRIAM MARTINEZ

Miriam is one of our longtime Path students. She has lived in the Valley Brook mobile home park in Stone Mountain, GA, her entire life. In 2020 she was **Shiloh High School’s valedictorian**, and this fall she moved away to Ithaca, NY, to **begin her college career at Cornell University!** For as long as we’ve known Miriam, she has wanted to be a doctor — and she worked hard over the years to pursue that dream. Miriam was also the **2020 recipient of the Path Project Royce Duncan Memorial Scholarship.** Congratulations, Miriam! We can’t wait to see where your path leads you!

Join us to help MAKE A DIFFERENCE!

We’re committed to partnering with others to serve our community, and we believe that greater things happen when we work together and make friends with our neighbors. **We love collaborating with businesses and churches, and on-the-ground volunteers are the lifeblood of our work** — contact us to find out how you can be involved!

Did you know...? FAST FACTS FOR 2020

We were able to place **9 neighborhood wi-fi hotspots** to support families with digital learning.

We safely hand-delivered over **700 Summer Fun PaKz** to our students over the summer. This was a replacement for summer camps that were canceled.

While we're still focused on **graduation** as a goal for our students, we're reIMAGINING our mission at Path Project — as an organization that is **inspiring students in mobile home parks to become flourishing adults** who are living out God's calling in their lives.

In 2020 the more we listened, the more we learned — and we are better for it! We are right in the middle of **reIMAGINING a more impactful and effective way** to do our work.

We were able to provide all of our Middle and High School students with the book **Left in America**, the story of our very own Juan Terrazas.
